BCR® Polyester Glove Liners

BCR Glove Liners are the ideal choice in any industry when the job calls for long hours of glove use when hand comfort is a concern. Special fiber construction allows for moisture absorption during extended wear. Berkshire's full line offers a choice to better provide even the most discriminating wearer with the most appropriate glove liner. Due to Berkshire's specific engineering, BCR Glove Liners fit most hands up to a size 9. This allows for easier stock control, while the availability of a larger size accommodates the hard to fit hands.

Feature	Benefit
100% continuous filament, knitted polyester	Maximum softness and comfort Allows moisture to be absorbed and wicked away from skin during extended wear Launderable for multiple reuse
Constructed using special seamless technique	No-run and Non-ravel
BCR Half-Finger Glove Liner	Comfort and protection without sacrificing dexterity
BCR Full-Finger Glove Liner	Design allows total protection for the most sensitive glove users
BCR Heavyweight Full-Finger Glove Liner	Designed for wear in temperature controlled areas, provides protection, comfort and insulation Ideal for a handling or inspection glove
Ambidextrous	Easy stock control
