Occupational asthma is an increasing problem. The FX225 provides a simple, cost-effective solution to the problem of providing a safe and clean working environment. The FX225 not only removes visible fumes and dust from the working area, but also removes unpleasant odors. The unit fits easily under almost any bench and is quiet enough not to distract the operators. Its size allows extraction to be exactly where it is needed, when it is needed.

## REPLACEMENT FILTERS

**XF2501** Pre-Filter (set of 5)

**XF2503** Combined HEPA/GAS

 **EDSYN®**  
...the power of precision
